For 2011, Wales Rally GB returns to North Wales and starts half a day earlier than for the past few years. With a mid afternoon start from Llandudno on Thursday 10th November, the competitors first negotiate two short blasts around the infamous Great Orme stage. From there the cars make their way out to Clocaenog Forest, near Ruthin, where they will tackle the only forest stage of the day. The crews then head back to the coast for a remote service and overnight halt back in Llandudno before heading down to Dyfi forest the following day.

Not used at WRC level since 1996, the World's best crews will once again tackle the stage on which Colin McRae was crowned World Champion back in 1995 after his epic battle with Carlos Sainz. Starting shortly after 4 pm, the Clocaenog stage will run in the dark leading to an electric atmosphere as spotlights arc through the night sky, performance engines reverberate across the hillsides and the cars "dance" past at breathtaking speeds showering sparks and spitting flame as they depart.

Buccaneer Motor Sports Club is proud to have been asked to run the Clocaenog stage. As with any rally stage, in order to run it safely and successfully we will need the help from many volunteers. If you would like to assist with running this iconic stage we would be very pleased to hear from you. Whether you will be with a group of friends or on your own, are an experienced marshal or novice, you will be welcomed all the same.

The preliminary details for the Clocaenog stage are as follows:

Please note that the stage is already full from a radio perspective. **OR CONTACT CMC CLUB SECRETARY RICHARD JONES**
